PROGRAMS

Beginners course (16 hours total - 4 times at sea)

During this course, participants will have up to 4 sessions on the water and learn the fundamentals of sailing as a sport & lifestyle. You will learn parts and areas of the boat and the sails, steering and operating them. Each participant will try all the crew roles (skipper, trimmer, bowman, navigator), and learn how to sail in all the points of sail. We will also cover some sailing theory like the physics of sailing, avoiding collisions at sea, basic sailing rules etc. This is a perfect introduction to a sport and a first step of becoming a crew member.

Advanced (16 hours total - 4 times at sea)

In the Advanced course, there are up to 4 sessions on the water, participants will upgrade their knowledge gained in the basic course and will improve their boat handling skills. This course is designed for people who want to buy their own boat or sail as a valuable member of the crew at any port/place?. You will learn more about seamanship like anchoring, meteorology, and chart navigation. We also train man-overboard procedures and sail more to improve our sailing skills. This includes reefing, advanced gybing techniques, and sailing in stronger winds. After this course, every participant should be able to manage the boat on their own.

Regatta (20+ hours total - 4 times at sea)

In this course, from our 4 times at sea, we will try to participate at least twice on regatta days, competing with other sailors and other boats.. We will prepare first, which includes simulating a regatta - sailing around buoys, practicing sharp and fast turns, synchronizing with your crewmates, and the sailing tactics. We will also cover advanced sailing rules before taking part in a regatta. You will observe and learn how to correctly participate in a regatta, from filling the application correctly to the mandatory after-race food and beer. It's a perfect environment to test your skills against others and bring some excitement to your day.
